Students applying for the MLT program will be evaluated on the above items as well as a point system. Please see notes about the point system on the third page of this document.

Section A: Evaluation of cumulative college record GPA

1. The MLT program coordinator or designee will review and evaluate all available college transcripts to calculate a cumulative college record GPA. All courses that were completed at any college or university will be used in this calculation. If you have only attended South Central College prior to applying to the MLT program, we will only evaluate your SCC transcripts.

Section B: Pre-requisite MLT program requirements:

1. **Any technical courses used for the MLT program should be within 5 years of May 1, 2020 for Fall 2020 semester admission.** If you have a previous college degree and/or have health-care experience, but have older technical college credits, please contact the program coordinator for a possible waiver of the 5-year requirement.
2. Applicants transferring courses to SCC from another institution **MUST have an official transcript on file in the Student Affairs Center by May 1st** (or the Monday following May 1st if the 1st falls on a weekend) in order to be considered for a fall start.
3. You may submit an application if you have courses in progress; however, completing courses in spring/summer semesters before a fall semester start **may be too late** for the acceptance process if the number of qualified applicants exceeds the number of available seats.
